MEMORANDUM FOR: Chief, Equipment Performance Staff, TDS
SUBJECT : Enclosure for blower on VG-1 Vacuum Easel

1. The blower on the VG-1 Vacuum Easel in the Photo Lab is noisy and thus produces an unsatisfactory working condition for those operating the equipment for prolonged periods. [REDACTED] has consulted [REDACTED] about making a sound absorbing enclosure for the blower.

2. Attached is a sketch of a sound absorbing enclosure. Please fabricate this enclosure by 5 January 1967.
